c-ear[®]

custom earphones, powered by KIND.

Just you and your music: *"I close my eyes, stand in front of the stage and listen to Clapton. I hear how the crowd cheers him. But much more important: I hear every note that he plays as if he were playing just for me. With c-ear I have full sound and the whole atmosphere."*

c-ear: perfect technology meets peerless sound.

What would it be like to dive into your favourite music?
Surrounded only by its sound. The rest of the world switched
off. Then every sound would suddenly be like a new,
'old acquaintance' that has finally become a friend.
A feeling of arriving safely.

Take control of your listening pleasure and enjoy a new,
totally private music experience.

Whenever and wherever you choose:
**with c-ear, the customised in-ear sound system
powered by KIND.**

Just the sound of motivation: *"My workout, my music. Nobody gets me going like Aretha Franklin. Oxygen shoots into every cell. Now I'm in my zone, just me and her – thanks to c-ear."*

c-ear: professional and personal.

c-ear is the new in-ear sound system that not only offers firstclass technical quality, but also the added bonus of individually customised earpieces.

- Crystal clear trebles, dynamic mids, bass with superb spatial depth: enjoy brilliant sound with c-ear.
- Customised for your ears only: c-ear earphones do not apply pressure or fall out, an absolute pleasure to wear.
- Optimal screening out of external noise: now you can be completely at one with your music, no matter where you are.
- Professional quality for personal enjoyment at a price you will be surprised.

Just music in heaven: *"I travel a lot, but never without Philly Joe Jones, especially his early recordings with Miles Davis. It's the rhythm, the special drive. In my head is just his music and c-ear. Full sound, pure relaxation."*

c-ear:
new standards in technology
and service.

c-ear earphones are manufactured using the unique Digital Light Processing production method, utilising the latest CAD and laser technology and specially developed plastics. Choose between a one-way or two-way speaker.

All it takes is a quick visit to a local, trained acoustician, who will take just a few minutes to make an individual impression of your ear, which will then be used to produce your in-ear sound system within a few days.

The digital data is saved under your personal ID number and can be retrieved at any time.

c-ear: personal listening pleasure.

Be it a high-end system, MP3 or other portable media player, mobile phone, notebook, or a live performance, c-ear delivers the highest quality music experience directly into your ears. Regardless of whatever you are doing, wherever you are and whenever you want it.

One-way/two-way speaker system (c-ear I/c-ear II):

Audio frequency range: 20 Hz to 17 kHz / 20 Hz to 21 kHz
